Under California law governing mutual water companies and Myoma Dunes Mutual Water Company's (MDMWC) governing documents, the property owner/shareholder remains responsible for rates, charges, and assessments associated with water service to the property. Accordingly, MDMWC requires the account to remain in the property owner's name. As a courtesy, MDMWC may bill the tenant as specified in this Owner/Tenant Agreement.

If the Tenant fails to pay any outstanding balance, the Owner remains responsible for all unpaid charges and any additional fees incurred, including, but not limited to, late-payment penalties, reconnection charges, or other charges set forth in MDMWC's current Water Rates and Service Schedule (Appendix B).

I have read and consent to the terms of this agreement.
